

On September 8-9-10, 2023, the 12th international exhibition of construction materials, technologies, and real estate "Batumi Build 2023" was held in Batumi, organized by the exhibition company Expo Batum. The purpose of Batumi Build 2023 is to unite local and international companies in the field of construction in one space, which will help to find business contacts and continue business relations in the region. It was possible to organize B2B meetings between companies at the exhibition. About 80 local and international companies participated in in the exhibition.
