

The Secretary General of International Investors Association Mr. Osman Chalishkan summarized year 2012 in TV show “Vector of time”. The speech was mostly focused on country investment environment and the future plans of the association. He said that the business representatives of Turkey Republic interested in Ajara investment environment and investments were mostly made in textile and construction in 2012. Mr. Osman spoke about the association that it has 23 member companies and the main purpose is to attract more investments and support the investors to improve-develop business. In addition, he said nowadays the country has favorable conditions to invest, strategic geographic location, stable macroeconomic environment, low taxes, liberal trade regimes, simplifying licensing and permitting procedures, business friendly environment, diverse investment sectors. According to his opinion how to be more attractive business environment in Georgia to invest, the negotiations related to the issue are underway, the government is ready to support the development of the business in the country. Investors Association along with ICC Georgia is actively involved in the amendments and simplification of tax and labor codes. As for future plans of the association in 2013 are to promote the employment of more employees, attract more investments and support business representatives to develop business.
