

International Investors Association took part in the meeting held on October 11, 2010 at sarfi customs. The head Autonomous Republic of Adjara Mr. Levan Varshalomidze, the heads of custom and police services, from Turkish side the mayor of Artvin Mustafa Iemlihalioglu, Turkish trade attaché Volkan Berker, the heads of Khopa and Arkhavi and authoritative persons of Turkish custom were attendeing the meeting. As result of ongoing repair works at the customs and Kobuleti road rehabilitation works had appeared difficulties for transporters, which created long line of trailers at Turkish side in Sarfi. Solving of this problem is important for both sides as it is the main obstacle to make custom clearance on time, as for the Georgian side, the companies are waiting for their goods. To recover the situation it is planned to take measures which will avoid lines at custom. The trailers will be served as it was before and during road rehabilitation they will stay in special place in Batumi and Kobuleti.
