It is already possible to issue permission on import of products of vegetation origin subordinated to sanitary control in the National Service of Food Safety, Veterinary and Plant Protection.According to the statement of Levan Varshalomidze this will save time and finances of Entrepreneurs. "Before this time importers, businessmen, farmers working in agricultural sphere needed to go to Tbilisi or Poti to receive above mentioned certificate, but already they will receive the certificate in Batumi", - the Chairman of the government of Adjara noted. The Chairman of the government of Autonomous Republic of Adjara gave himself first certificate to the head of farmers' house.
