

The two days forum organized by the Ministry of Agriculture of Adjara with title - "Demonstration of the new technologies in agricultural sector" opened in Intourist Palace Hotel. In bounds of the forum the interested persons will be informed about modern technologies in poultry farming, fish processing complexes and nursery thrift.

The Chairman of Government of Adjara opened the conference and wished success to the participants.

The representatives of 12 companies from Ukraine, Netherlands, Latvia and Germany are participating in the conference as well as local farmers and businessmen.

The goal of the forum is to give the chance for presentation of innovations, exchange of information and getting into new contacts between foreign and local businessmen operated in sphere of agriculture.
